## INTRODUCTION

Bolpur College was established in 1950 as an institution of higher learning by the generosity of a few large-hearted education-loving men of the locality. The college was founded with the definite purpose of expanding of the scope of higher education for the local youth and to create employment opportunity for displaced people from erstwhile East Pakistan. Initially, the college conducted Intermediate courses in Arts and Science; it was given affiliation for B.A. Degree in 1956. The teaching of B.Sc. Course was introduced in 1959. Four years later, in 1963-64, the University approved Commerce Course at undergraduate level. The college became a Government Sponsored College in 1950 under a scheme introduced by the Government of West Bengal. It started as an affiliate college of the University of Calcutta, but after the establishment of The University of Burdwan in 1962, the college came under this university. From a humble beginning, Bolpur College has evolved to become one of the largest colleges in the district of Birbhum which is a backward district with a considerable tribal and minority population. A good portion of the population belongs to backward classes as well. Thus the college was entrusted with the responsibility of imparting undergraduate education to people who were (and are) disadvantaged in various ways. The college has been a co-educational institution from its very inception and is housed in its own buildings in a reasonably spacious campus. It has a separate spacious three-storied library building. The college also has its own hostel for minority (male) students only.

Today, the college faces the challenge of imparting the best possible undergraduate education that is in keeping with national and international standards within the prescribed peripheries of the affiliating university. While the college keeps in view the needs of the local population, its portals are universally open. It is the engaging endeavour of the college to equip its students with knowledge and skills that would enable them to get access to opportunities for further education, while also building in them awareness of the socio-political and economic realities and inculcating in them moral, ethical and cultural values rooted in the Indian tradition, thus making them responsible citizens of the emerging globalized world. The vision of the College is enshrined in its motto. Translated from Sanskrit into English it stands as 'That is knowledge which leads to freedom'. Both knowledge and freedom are loaded concepts and have many dimensions. On the practical level, it means that learning releases one from the bondage of ignorance. So, it is knowledge which enables one to succeed in worldly life. The pursuit of knowledge requires Perseverance, Discipline, the Spirit of Inquiry, leading to Empowerment and acquisition of Democratic and Moral Values. The college envisions students not merely as book learners but also as socially and culturally conscious and responsible citizens. Above all, it wants students to be responsive to the rich cultural heritage of the land, while also being sensitive to global issues, thus inculcating in them the ability to harmonize tradition with modernity.

## **PROFILE OF THE COLLEGE:**

The college campus is built on an area of 1.90086 acre and built up area of 2534.95 sq.mts. It has playground facility and one hostel for Muslim boys. The college received its recognition of the University Grants Commission, both under 2(f) and 12(B) on 31/12/ 1950. By virtue of this recognition since its inception the college is eligible for UGC grants and also that from the State Government.
